**INTERAGENCY INFORMATION SHARING AGREEMENT
BETWEEN
STATE OF WASHINGTON
OFFICE OF SUPERINTENDENT OF PUBLIC INSTRUCTION
AND
TAHOMA SCHOOL DISTRICT**

This Agreement is made and entered into by and between the Washington State Office of Superintendent of Public Instruction (hereinafter called "OSPI") and the Tahoma School District (hereinafter called "District"), pursuant to authority granted in Chapter 39.34 of the Revised Code of Washington, relevant federal statutes, and related regulations.

PURPOSE

In the 2007 legislative session, SB5843 was passed and signed by the Governor. SB5843 addresses educational data and data systems. In Section 4, the legislation includes a requirement that school districts submit to OSPI the teacher identifier (certification number) for each teacher assigned to teach a class or course and the state student identifier number (SSID) for each student enrolled in a class or course beginning with the September data that is collected in October 2008.

To comply with RCW 28A.320.175, school districts must begin submitting new data elements with the 2008 September data that is collected in October 2008 to comply with the Comprehensive Education Data and Research System (CEDARS) data requirements.

CEDARS is a parallel effort underway at OSPI; it is expected to move to production for the 2009/2010 school year. This data collection and data warehouse system will replace the current Core Student Records System (CSRS) in collecting student level data, but will also collect educator and course data to support RCW 28A.320.175. There are currently seven pilot districts participating in CEDARS, aided by their student information system (SIS) vendors.

Because these two new data collection efforts (RCW 28A.320.175 and CEDARS) are only a year apart, there is a desire by several school districts to avoid creating new collection systems twice. Their preference is to collect the RCW 28A.320.175 data elements, due in 2008, in the new CEDARS format. The CEDARS format requires the collection of more than data elements to comply with the data validation routines in place.

STATEMENT OF WORK

District shall collect the new data elements required by RCW 28A.320.175 and the additional CEDARS data elements required by OSPI. OSPI agrees to accept the 28A.320.175 data in the CEDARS format, process it, and delete the data that is not required by CSRS or RCW 28A.320.175 rule.

The parties hereto agree that all activity pursuant to this Agreement will be in accordance with this Agreement and all applicable current or future federal, state and local laws, rules and regulations.
