

# Welcome, Students and Parents, to your Math Expressions resources on ThinkCentral.com!

Welcome to Think Central, a website where you can access your Harcourt Math Expressions Activity Book and fun interactive activities! Go to [www.thinkcentral.com](http://www.thinkcentral.com).

Click on your subject from the list on the left of the screen (Mathematics); then click on your text (Math Expressions).

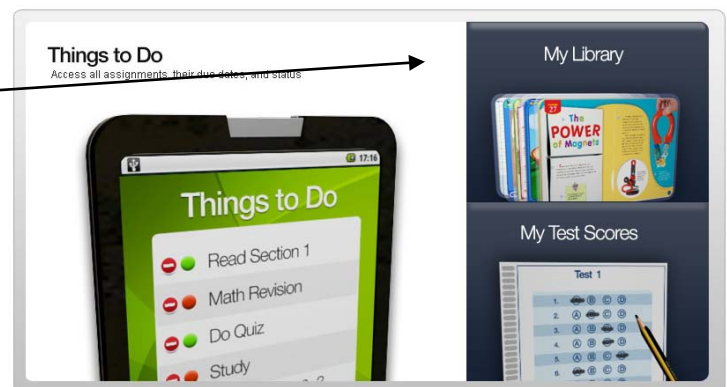

Use the dropdown boxes to select your state, district, and school, as in the illustration on the right.

Your child will use the same username and password that they use to log on at school.

If your computer asks if you want to allow pop-ups, select **Always Allow Pop-Up From This Site**.

Once you are in the system, you simply click on **My Library** to access your **Student eBook** (it may take awhile to load).

Other than your Math Expressions Student Activity Book, you can click on "Mega Math" or "iTools" as well. Mega Math provides fun, engaging math activities for students to improve and further their skills. iTools provide virtual manipulatives and modeling activities.

"Things to Do" will list current assignments IF your teacher is creating assignments.

"My Test Scores" will list scores of online tests IF your class is taking online assessments.
